

HILAL STEEL

THE STEEL PARTNER

EACH MATERIAL HAS ITS SPECIFIC CHARACTERISTICS WHICH WE MUST UNDERSTAND IF WE WANT TO USE IT. THIS IS NO LESS TRUE OF STEEL.

VISION

To be a service provider in the field of design and construction of pre fabricated buildings and structures. And offer our product and services at a reasonable rate.

MISSION

To Build a long term and healthy relation with our customers and satisfy our clients through well trained and honest employees

HILAL STEEL COMPANY PROFILE

We offers services in the feild of design, fabrication and erection of Pre Fabricated Buildings and steel structures.

We focuses in construction of show rooms, hospitals, educational institutions, factories, ware houses, and convention centres.

Hilal Steel was formed and run by an engineer he has got years of experience in the feild of steel structure construction.

Hilal Steel started the business with registered office at Malappuram and a sales office at Cochin.

We are now able to undertake projects at almost locations in India and seeks a supporting parner to reach our services to middle east countries.

PRODUCTS & SERVICES

Pre Fabricated Buildings

Pre Fabricated Steel Structures

Space Frame Roofs

Mezzanine Floors

Conventional Roofs

Ware House Construction

PRE FABRICATED BUILDINGS

A prefabricated building is normally fabricated at fabrication shops and transported and erected at site. These are suitable for multi storey commercial buildings, Ware houses, Auditoriums and Convention centres.

SPACE FRAMES

Space frames are 3d trusses constructed by interlocking struts arranged in such way that it can bear long span. Suitable for large span convention centres and ware house where intermediate columns are not desirable. Space frame connections can be welded bolted, riveted or ball type.

ADVANTAGES OF STEEL STRUCTURE CONSTRUCTION :

Super Quick to Build

better quality

Can be pre fabricated

Easy to Expand & repair

Can be reused or recycled

Scrap has a better value

Fast erection

More resistive to wind and earth quakes

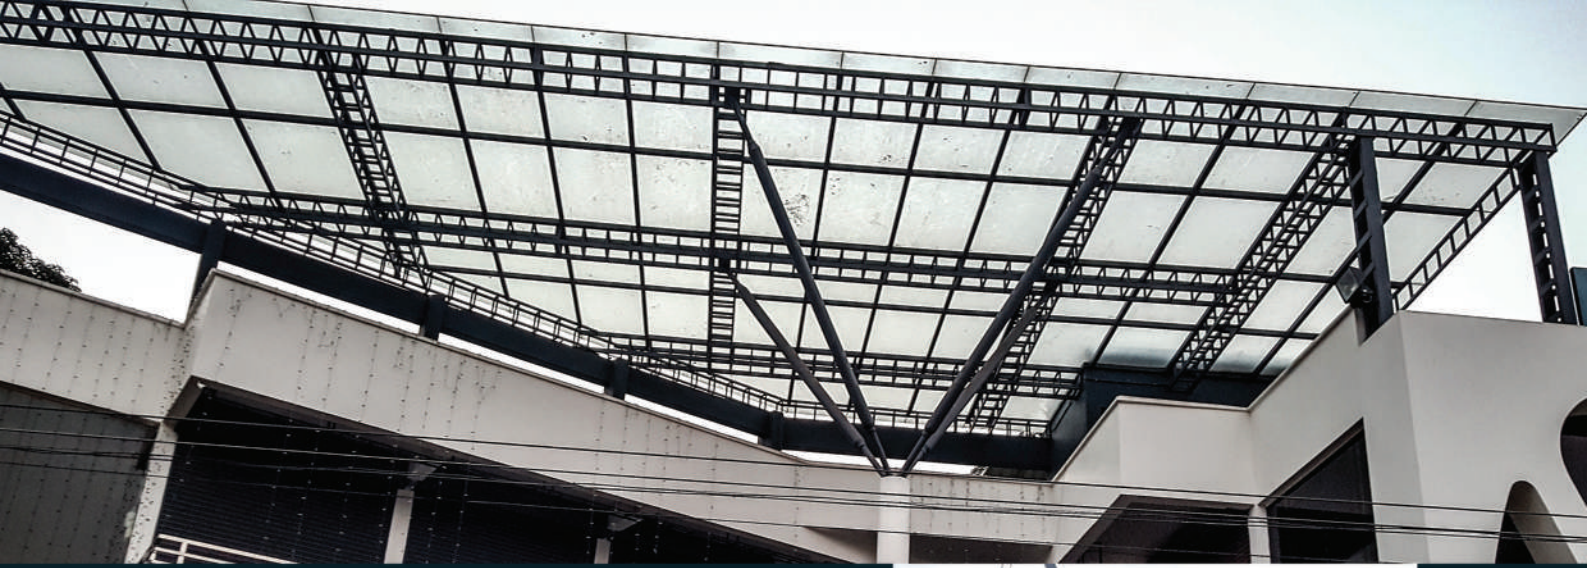

DISADVANTAGES OF STEEL STRUCTURE CONSTRUCTION :

Costlier than RCC

Labors to be skilled

Corrossive and need maintenance
